**DETAILED ACTION**  
**EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

**Title:** A display device having a terminal that has a transparent film on top of a high resistance conductive film.

*Regarding Claim 1,*

Ito et al discloses (US 5748179) (Figure 15) lines connected to pixels formed on an insulating substrate (SUB1). A line terminal (BUMP) connected to at least one of the lead line (d1) in a peripheral area of the insulating substrate different from a display area. An anisotropic conductive material (ACF2) provided on the lead line; An external terminal (TM) formed on a periphery of the peripheral area of the insulating substrate (SUB1), to be connected to an external unit (FPC is located). An external line (d2) connected to at least one of the external terminal (BUMP) An external line terminal (BUMP) connected to at least one of the external line (d2) and connected directly to a terminal (BUMP) of the drive circuit by a anisotropic conductive material (ACF2).

Ito et al does not disclose a transparent conductive film (d1) provided on the line terminal; A driver circuit (IC) with a terminal (BUMP) connected to the line terminal (BUMP) through the transparent film (d1) Wherein a surface of the line terminal (BUMP) to be connected to the transparent conductive film is formed by high resistance conductive film, and a surface of the external line terminal to be connected to the terminal of the drive circuit by the anisotropic conductive material is formed by a low resistance conductive film.

Thus, the details regarding the specific structure is not disclosed. Therefore, the present invention is considered to be patentable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
